

Abdelrahman Abid

Full-Stack Web Developer — AI & Data Science graduate
Amman, Jordan (+962) 79 280 3396 abed7elrahman@gmail.com

PROFILE

Full-stack developer who ships production web platforms for real businesses in Jordan — bilingual (Arabic/English, full RTL) storefronts, booking systems and admin dashboards on Next.js, React and Node.js, deployed and maintained on Linux VPS servers.

PROJECTS — LIVE

matajerjo.com
Matajerjo — multi-tenant e-commerce platform for Jordanian merchants

- Merchants launch bilingual (Arabic/English, full RTL) storefronts with themeable designs, a merchant dashboard and plan-based limits.
- Postgres row-level security per store, money stored as integer fils (JOD), schema-validated config and server-side plan gating.
- Deployed on an Ubuntu VPS: Caddy with on-demand HTTPS for custom domains, Docker Postgres, PM2, Cloudflare and daily backups.

Next.js 16 · React 19 · TypeScript · Drizzle · PostgreSQL · Turborepo · Tailwind · Caddy · Docker

08 2026 – 09 2026

Beto Center
Production online store — built, deployed and maintained

- Storefront and admin dashboard serving live customers and real orders.
- JWT auth, rate limiting, security headers, image uploads and transactional email.
- Deployed on an Ubuntu VPS: nginx, PM2, Let's Encrypt TLS, MongoDB Atlas, plus security and QA audits.

React · Express · MongoDB / Mongoose · Tailwind · nginx · PM2 · Ubuntu VPS

04 2026 – 08 2026

betollacosmetics.com
Betolla Cosmetics — full e-commerce platform, storefront + three role-based dashboards

- Customer storefront plus Admin, Staff and Delivery dashboards behind one sign-in with role-based routing.
- Bilingual English/Arabic with full RTL, light/dark theming, customer wallet and loyalty points.
- Analytics suite, PDF invoices, email notifications and an end-to-end Playwright test suite.

Next.js · TypeScript · Prisma · PostgreSQL · Redis · Tailwind · next-intl · Playwright

07 2026 – 08 2026

prompts.jo
Prompts. — website and admin panel for an AI post-production studio

- Marketing site, portfolio and searchable prompt repository with an admin panel.
- AI prompt generator built on the Gemini API; credentials auth for the back office.

Next.js · React · TypeScript · Prisma · NextAuth · Gemini API

07 2026

PROJECTS — NOT LIVE

Jiana Beauty Lounge
Mobile-first booking platform for a beauty lounge

- Login-free guest booking, admin timeline dashboard and a restricted staff portal.
- Real-time AR nail-polish try-on in the browser; WhatsApp booking confirmations and reminders.
- Two full color palettes, English/Arabic with RTL, app-like swipe navigation.

Node.js · Express · SQLite · WhatsApp integration · Canvas / camera AR

06 2026 – 08 2026

PingDrop
Travel and tourism discovery website

- Location scanning, nearby-city discovery and collectible passport stamps.
- AI-assisted trip planning, with analytics and ad monetisation wired in.

JavaScript · HTML / CSS · AI trip-planning API · Google Analytics

03 2026
